# **The Muulnu Token (MINU)**

**What is Muulnu Token?**

**Muulnu (MINU) is the KING of the “COW TREND”! If there’s a trend, it would definitely be by a fast and consistent delivery to the community – a rather fresh take on BSC.**

**This token is gearing towards domination of the animal hype tokens and eventually colonizing the whole space.**

**MINU is KING!**

**Why MINU?**

**Because MINU is KING! MINU will spread like wildfire across BSC as the animal hype revival is taking place. The revival could never be more perfect than now! While BSC takes a hit, we still make this project a big hit! Talk about FOMO of the year though...**

# **The Logic of the MUU**

**The MINU project is just one of the most innovative offerings to date. When others rely on heavy taxation to create a cushion for sustainability, this project actually relies on the contract execution where balance between the rise and fall of the token price is evident, with each buy and sell transaction. Seldom would you see such an AMM nowadays.**

**We don't want you to just take our word for it, we want you to examine the trades to the exact second once trading is live.**

**When a project is well-thought of, multiple test contract deployments and trade simulations are vital pre-requisites (sad to say, this is ignored nowadays) and this is exactly what the project owners have done – tests and simulation to get the perfect MUU!!!**

# **MUUkenomics**

**Token Name: Muulnu**

**Ticker: MINU**

**Chain: BSC**

**Total Initial Supply: 1.000.000.000.000**

**This is where your 6% Buy/Sell taxes go:**

**Liquidity Pool: 1%**

**Team Fee: 1%**

**Marketing: 4%**

**NO OTHER PROJECTS would dare launch on BSC with these tokenomics nowadays, NONE! EVER!**

**We are confident though, that we have taken all the primordial steps to MOON the MUU!**

# **The Muulnu Power**

## **Surprise!**

**The element of surprise always works wonders; the drive to dominate, so much more. If you are in the hype, it's no surprise. How we handle the launching and marketing is the key.**

## **Marketing**

**Marketing is our favorite thing to do. We are in the crypto space long enough to know the right partners and the most effective influencers. All our socials are well-managed and our project partners ensure that we are heard and get noticed literally everywhere!**

**See for yourself, it's undeniable that we are truly in it, to win it!**

# **The MUU and The Moon**

**We have prepared the launchpad for this token. All systems go and that old vibe of the cow over the moon is about to come true!**

**Everyone who was once or a couple of times in with any of our projects can attest to that. We always make sure no one is left behind so it's okay to feel the FOMO – For MOon is the destination.**

**We want you to have fun during this journey!**

**The MINU community shall be alive and well until the colonization takes place. Trust the process, believe that the MINU Team is always within your reach with open eyes and ears.**

**We believe that organic community growth is essential. How we engage with you is how you engage with your fellows and that is valued deeply by the team. Spread the word once you are in!**

# Your Barn and the Muulnu

**Fill your barn with MINU gold!**

**The tokenomics of this project makes much sense for a healthy trading, not just a quick in and out. Healthy trading is the true indicator of a good project. At 4% Buy/Sell Tax, we truly believe that those who are in it for the long term will be the most fortunate ones.**

**Ride the highs, buy the lows! Trade if you must but don't get left behind. Be there when the domination happens!**

**This time FOMO never felt this good for the next big thing is already here, MINU is here!**
